Address THE EVENING REPUBLICAN, 125 South Water street, Decatur, Illinois.

SATURDAY, NOVEMBER 10, 1894.

THAT "step in the right direction" has not left a single track in the Tuesday's snow.

"TARIFF for revenue only" knocked out the most picturesque gerrymander evolved from the brains of Democratic statesmen.

"TARIFF REFORM" has even prostrated the business of selling United States senatorships in the Illinois Democratic conventions.

SPRINGFIELD'S opinion as to the causes which led to the political cyclone, after careful perusal, seems to be fully as valuable as his opinion touching the course of the government in the Hawaiian fiasco.

The business interests of the country are never fearful of the results of a Republican victory. The reason is obvious. The Republican party never legislates against the business of the country.

"WELL intrenched in the principle of tariff reform we will continue to shell the enemy." So said all the tariff reformers before the election. Looking over the battlefield one is led to suspect that they bursted their poptun the first fire.

VICE-PRESIDENT STEVENSON told the people of the south that he brought them good tidings from the north. In the east he said he brought them good tidings from the west. The vice president was either a spy from the Republican camp or was not "on to" his job.

WILSON told England that the Democratic party had torn down the defenses and they could now come in and compete with us in our market. As soon as Uncle Sam heard this he, arrested the progress of the whole outfit and not enough of them are left to hold a respectable rally.

THAT great cause of "tariff reform" which provides for the stimulation of the importation of foreign goods and the consequent depression of American industries, will have little attention in the next congress, as the reformers have been disfranchised in the following states which have sent no Democrats to congress:  
Colorado, Connecticut, Delaware, Idaho, Illinois, Indiana, Iowa, Kansas, Maine, Michigan, Minnesota, Montana, Nebraska, Nevada, New Hampshire, New York, North Dakota, Oregon, Rhode Island, South Dakota, Vermont, Washington, West Virginia, Wisconsin, Wyoming.

"Tariff Reform."  
Have you heard something about tariff reform? If you have you will recall the fact that it was the invention of Grover Cleveland in 1887, three years before the McKinley tariff bill was enacted into law. You heard of it in 1888, 1890 and in 1892, and that in the latter year the people thought they would try it. After a trial of two years in which our wage earners became idle, wages were reduced, values were depreciated, and business suffered such prostration as was not known for 50 years, the people concluded they did not want it, and this is the way they fixed it. They sent to congress only 12 tariff reformers out of the following great business states.

Ohio, Indiana, Illinois, Michigan, Wisconsin, Iowa, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, West Virginia.

The 12 tariff reformers who got in from these states seem to be accidents, and half from the following states: Ohio 2, Massachusetts 1, New York 6, New Jersey 2, and Pennsylvania 1.

**Tariff Reform No. 2.**  
The following great so-called agricultural states of the west, where we were told "tariff reform" had its claws in very deep, have not sent a single "tariff reform" howler to congress:  
Indiana, Wisconsin, Illinois, Iowa, Michigan.

The lesser western states that send no "tariff reformers" to congress are: Idaho, Nevada, South Dakota, North Dakota, Washington, Wyoming, Oregon.

The following eastern states sent no "tariff reformers" to congress:  
Maine, Rhode Island, New Hampshire, Connecticut, Vermont.

The following states are almost solid: Ohio, Massachusetts, New York, New Jersey and Pennsylvania. The people are through with Democratic free trade.

**Tariff Reform States.**  
The following states are solid for "tariff reform" no matter how seriously

it may affect our home industries and American labor:

Arkansas, Louisiana, Florida, Mississippi, Georgia.

**Ex-President Harrison's Opinion.**  
Indianapolis Special: In response to a request for an expression of his views regarding the result of Tuesday's election, ex-President Harrison said: "It is the most extraordinary political revolution the country has ever witnessed. Wherever there was a free ballot the vote of confidence given in 1892 to the Democratic party (if one was given) has been recalled, and a vote of utter and final repudiation substituted. For thirty years party expediency has been substituted by the leaders for party principle, and expediency had as many faces as there were congressional districts. Every eccentric cross-current of popular prejudice was followed as if it were the gulf stream. No passion was too wild for a Democratic mount. Classes were created and inflamed to outbreak and disorder. In one state debauched currency, and in another a socialism that was near to anarchy were given a bed. Property, especially mills and factories, was invested and assaulted in one section and in another trusts were secretly coddled. The old Democratic doctrine that favored the levying of customs duties to the limit of an adequate revenue was abandoned. A deficiency to be made good by bond issues or by internal taxes was preferred to the 'incidental protection' that adequate customs duties would give. The silver question was dealt with in the most vacillating and irresponsible manner."  
"A vast majority of our people believe in a protective tariff—never so many and never so strongly as now. They differ as to rates and schedules, but not as to true principle. They believe in reciprocity as the first method of getting foreign markets. They believe in a progressive and American foreign policy. The workmen voted their prejudices in 1892; this year they voted their patriotism and their love of home."  
The great victory secured by the reformers in New York City ought to have been mentioned in the Thanksgiving proclamation—perhaps it would if it had come earlier. It gives the assurance so much needed that there is an adequate and recuperative power in the most ring-ridden communities; that popular government is equal to its severest test—the control of great cities.

**Prophets of Baal.**  
The following leading prophets of Baal were slain last Tuesday at the base of Mt. Carmel after the test between American protection and "tariff reform": Representatives Cobb, Alabama; Denson, Alabama; Geary, Caminetti and English, California; Sperry, Piggott and DeForest, Connecticut; McGann, Goldzier, Springer, Lane and Williams, Illinois; Taylor, Bretz, Holman, Cooper, Bynum, Brookshire, Martin and McNagry, of Indiana; Hayes, of Iowa; Montgomery, of Kentucky; Talbot, of Maryland, Griffin, of Michigan; Hall and Baldwin, of Minnesota; Hatch, Bland, Heard and Morgan, of Missouri; Geisenheimer, Cornish, Thomas Dunn English and Dunn, of New Jersey; Coombs, Sickles, Cummings, Haines, Tracy, Van Horn, of New York; Branch, Bowen and Henderson, of North Carolina; Ritchie, Outhwaite and Tom Johnson, of Ohio; Hines, Riley, Sipe and Sibley, of Pennsylvania; Lapham, of Rhode Island; Snodgrass and Enloe, of Tennessee; William L. Wilson and Alderson, of West Virginia; Barwig, Wells, Barnes and Lynch, of Wisconsin; Coffeen, of Wyoming.

## MUNICIPAL CLUB OF DECATUR.

**Declaration of Principles:**

We, the members of the Municipal Club of Decatur, inviting the co-operation of all our fellow citizens, hereby declare and pledge ourselves to the enforcement of the following principles:

First—We, as citizens of Decatur, believe that our highest interests will be materially promoted by the absolute separation of municipal government from national and state politics.  
Second—Realizing that respect for law is the bulwark of liberty, we demand a vigorous observance and enforcement of all our laws, and we pledge ourselves to nominate or endorse only such candidates as we believe to be in favor of such enforcement. Honest and capable of properly administering the affairs of our municipal government.  
Third—We advocate practical extension of the highest principles of civil service reform to our municipal department.  
Fourth—It will be the special object of the Municipal Club of Decatur to make a thorough and scientific investigation of the correct principles of local self-government, especially as applied to this municipality, and to collect and publish all appropriate information on the defects and needs of the city government. While the members of this club may be members of widely different national and state organizations, all will be united in common purpose of obtaining the best city government and the wisest expenditure of money, advancing the material growth of this municipality and of stimulating that spirit of progress in her citizens which will secure for them and descendants the largest measure of domestic comfort and commercial prosperity.

Being in hearty accord with the declaration of principles of the Municipal Club of Decatur, I hereby subscribe my name as a member thereof:

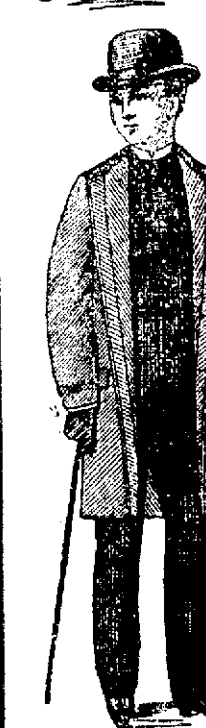

Name.....  
Address.....

Ward..... Precinct.....  
Every citizen is requested to come forward and help the business men of Decatur secure the same business methods in the management of the city's affairs that they have in their own.

### IT IS CAPTAIN CASSELL.

He is in Command of the Decatur  
Guards—A Spread.

At the called meeting of the Decatur  
Guards, Company H, Fifth Regiment,  
Illinois National Guards, held at the  
Armory last night, J. Frank Cassell was  
elected captain, Will Hammer first lieuten-  
ant, Arthur Gallagher second lieuten-  
ant.

There was an elegant spread at the  
Krebs cafe, and all the boys were there.  
The promotion of Lieut. Cassell to the  
position of captain is well deserved.  
He is one of the best posted military  
young men in the regiment, and will be a  
credit to the company and the state  
service.

Woodmen Entertainment.  
Decatur Camp, No. 144, Modern Wood-  
men of America, gave a fine entertain-  
ment at Coeur de Leon hall last night.

It was for Modern Woodmen and their  
friends and in every way it was a grand  
success. The Woodmen were there in  
great numbers and so were their friends.  
The entertainment opened with a  
splendid program and ended with a ball.  
It was a pleasant affair all around. The  
following program was given:

Music—Orchestra.  
Recitation—Miss Willie A. Robertson.  
Musical Glasses—Mr. and Mrs. Will  
L. Smith.

Address—James M. Graham of Spring-  
field.

Musical Glasses—Mr. and Mrs. Will L.  
Smith.

Recitation—Miss Willie A. Robertson.  
Music—Orchestra.

In his address Mr. Graham gave an  
outline of the benefits of the order.

Why They Didn't Come.  
A Quincy paper commenting on "The  
Cross Roads of Life," Edmund Collier's  
play, which was to have been here Tues-  
day night, says: "The Cross Roads of  
Life" company that appeared at the Em-  
pire last evening will not appear at  
Peoria this evening. They are stranded  
here with about fourteen people strong.

They started out August 21 and have  
played to large houses, but they have  
been making long jumps and the rail-  
roads have taken all the receipts. Their  
New York agents booked them from Lo-  
gansport, Indiana to Davenport, then to  
Quincy. From here they were to go to  
Peoria and thence to Decatur. They  
have paid in six weeks \$1,350 to the rail-  
roads.

and 17, in Carr's addition to Argentina—  
\$300.

Boys' Literary Society.  
The High School Literary society held  
its regular meeting Friday evening in  
the High School building. There was a  
good attendance and the following pro-  
gram was rendered: Oration, Cecil Da-  
vidson; newspaper, Earl Braden; man-  
dolin solo, Dean Cool. Debate—"Re-  
solved, That the United States senators  
should not be elected by the people."

The affirmative was taken by Henry  
Stevens and Ira Ciokey and the nega-  
tive by Bert Boggess and Wayne Will-  
iams. The judges rendered their deci-  
sion in favor of the affirmative.

Taken to Kentucky.  
Mrs. Sarah Jarman, of Richmond, Ky.,  
died Friday at the residence of her  
daughter, Mrs. Snyder, of Moweaqua,  
while on a visit there. She was an aunt  
of Misses Nannie and Virginia Odor and  
was quite well known in Decatur, as she  
had visited here frequently. She had  
been in poor health for some time and  
her death was not unexpected. The  
body was taken to Kentucky for burial.  
She was past 70 years of age.

Birthday Party.  
Mabel, daughter of I. H. Shimer, on  
North Calhoun street, was given a birth-  
day party yesterday. The young folks  
spent the time pleasantly in games and  
taffy pulling. Refreshments were served.  
Those present were Ada Magee, Edith  
Cann, Mary Moore, Sarah Imboden,  
Maud Evans, Fred Cassell, Earl Braden,  
Charles Imboden, Arthur Clary, Frank  
Dixon and Alva Johnson.

Snow.  
Tuesday there was a ballot frost for  
the Democrats. Wednesday it rained  
and then it snowed. There was a drop  
in the temperature to 32 degrees, the  
freezing point, and this morning there  
was snow on the ground. There may  
be good sleighing before Thanksgiving.

### THE EFFECT IS SEEN.

Business Boom at Pittsburg—Glass  
and Tin Plate Factories.

PITTSBURG, Pa., Nov. 8.—The election  
of Republican congressmen all over the  
country has had a good effect on the  
window glass trade. H. McKee & Co.  
will start one of their idle furnaces Sun-  
day night, and if business picks up as  
the firm hopes it will, the other two fac-  
tories will start soon. The block  
between South Twelfth and Thirteenth  
streets has not given employment to a  
half dozen men since June 30, 1893, and  
there is great rejoicing among workmen  
over the start. Thomas Wightman &  
Co. also gave notice that they will  
employ in their new factory up the Mo-  
nongahela river Saturday. Abel Smith  
& Co. will start their plant at Lancaster,  
Ohio.

The preliminary work began to-day on  
the great blast furnaces of the Carnegie  
Steel Company at Duquesne. It is esti-  
mated they will cost \$750,000. A finish-  
ing mill in connection with the plant is  
also contemplated. Near by are several  
batteries of boilers, which will serve as  
part of the establishment. The furnaces  
will stand south of the steel works and  
their construction will require fully a  
year. They will be the largest and the  
most complete in the United States and  
will give employment to 1,200 men. The  
ground on which the plant will stand  
contains fifty-four acres. The Chartiers  
Steel Company will put in a tin-plate  
mill to cost \$125,000.

The 35 and 40-inch mills at the Home-  
stead steel works went on double turn-  
to-day. There is great rejoicing in that  
famous borough, which gave a good Re-  
publican majority for better times.

The officers of the Amalgamated As-  
sociation were notified to-day that on  
account of the elections the tin-plate  
manufacturers who wanted a big reduc-  
tion will now agree to arbitrate the  
matter and may not insist on the wage  
cut. These announcements have had a  
good effect on labor. The manufacturers  
do not say the elections have had any-  
thing to do with the improvements, but  
the workmen say they can see that they  
have without being told so.

WARREN, Ohio, Nov. 8.—A firm in  
Wheeling, W. Va., has been figuring for  
some time with the Lloyd Booth com-  
pany of Youngstown, about putting in  
a tin mill in the former city. Definite  
action was delayed pending the result of  
Tuesday's election. To-day the Youngs-  
town firm received a telegram from the  
Wheeling people saying they would be  
ready to close the contract for the build-  
ing of the plant within a few days.

A TEN-PER-CENT RAISE.  
BALTIMORE, Md., Nov. 9.—Four hun-  
dred men employed at the Canton cop-  
per works have been formally notified  
that on next pay day their wages would  
be increased by 10 per cent. The prop-  
rietors say the new schedule has been  
struck owing to the prospective in-  
crease in the profits of the concern. A  
reduction had been made in the wages  
of the employees in November, 1892, im-  
mediately after the general election.

Lecture Next Tuesday Evening.  
The lecture to be given at the Opera  
House on Tuesday, November 13th, by  
Messrs. Finerty and Murphy, will be a  
musical and literary treat from the de-  
scription of the program. Mr. Finerty  
divides his review into six epochs, each  
representing an important period in  
Irish history. He reviews the important  
political events of the period and the  
works of the bards. In illustration of  
his text Mr. Murphy will sing one of his  
famous songs in each period. There is  
no country richer in melodies and folk  
songs than Ireland, and given by a  
famous artist like Mr. Murphy, they  
will most certainly be heard at  
their best. They will be doubly inter-  
esting in connection with a historical  
lecture, as the bards wielded a marvelous  
influence on the politics of the country;  
and their works were no small factor in  
forming the national character of the  
Irish people. Mr. Finerty, aside from  
being an orator from the first class, is an  
able historian, and those who wish to  
hear a masterly review of Irish history  
and its military glories should not fail  
to attend.

Willie Collier's New Comedy.  
At the opera house on Monday even-  
ing, Nov. 12, William Collier, the quaint  
comedian, will appear in a role wholly  
unlike the farce comedy parts that have  
made him so great a public favorite.

This does not mean that he has sud-  
denly changed from jest to earnest.  
Quite the reverse. Mr. Collier has not  
concluded that it is a crime to laugh  
aloud. He has merely abandoned the  
accessions of farce comedy and now de-  
pends solely on his talent as a comedian.

His new play, "A Back Number," is a  
comedy drawn in three acts, written for  
him by Edward E. Kilder, author of  
"Peaceful Valley," "A Poor Relation,"  
etc. The story is a pastoral one and the  
scene is laid in an Ohio village. Mr.  
Collier assumes a dual role.

The most eminent scientists, includ-  
ing United States Government chem-  
ists, have united in indorsement of Dr.  
Price's Cream Baking Powder.

Robert Gaylor will present his third  
edition of "Sport McAllister" at the  
Grand on Wednesday evening, November  
14th. Those who want to laugh should  
take advantage of the opportunity to  
see a performance so meritorious. The  
chief charm about Gaylor's work is his  
naturalness and his absence of noisy and  
meretricious devices to cause laughter.

His style is clean, wholesome and ir-  
resistible. His humor is unctious and re-  
fined and does not depend upon vulgarity  
in the least sense. He has successfully  
entertained large audiences in every city  
of importance in the United States and  
Canada.

### Opera House Next Week.

WILLIE COLLIER.

Monday evening, Nov. 12, the quaint  
comedian, Willie Collier, supported by  
his fine company, will appear in his new  
great success, "A Back Number."

BOBBY GAYLOR.

Wednesday evening, Nov. 14th, the  
comedian, Bobby Gaylor, in his comedy,  
"Sport McAllister."

JAMES J. CORBETT.

Saturday evening, Nov. 17th, the  
world's champion, James J. Corbett, in  
his newly written comedy-drama, "Gen-  
tleman Jack," introducing new speci-  
alities, a fine quartette, and the famous  
prize ring scene. A great big success  
everywhere. Don't miss it.

A New Jag Cure.

A new jag cure has been discovered  
in Missouri. A faithful wife, whose  
patience with a drunken husband had  
been almost worn out, being out of pro-  
visions, except tomatoes and salt, and  
nothing to buy any more, had been  
feeding him on that kind of a diet for a  
week, or more, and now the man has  
lost his desire for liquor, and is work-  
ing hard to support his family. Now  
there are a great many jags in Deca-  
tur, and they will no doubt try to  
keep their wives from seeing this item  
for fear that tomatoes and salt will be-  
come a steady diet for several weeks at  
their homes. However, if this is true,  
there will be no more journeying of  
young jags to Dwight or Danvers to get  
cured. Keeley's bi-chloride of gold or  
Rowell's willow bark cure will just sim-  
ply not be in it. It will be much cheaper  
for the young men to carry tomatoes  
and salt in their pockets and take the  
remedy whenever they feel that they  
need it. Once it gets a start, the chlo-  
ride of sodium tomato jag cure will be  
come quite fashionable.

The Royal Lyceum Course

At the tabernacle embraces five high-  
grade entertainments as follows:

Marie Decca Grand Concert Co.  
Leland Powers, Impersonator.  
Dr. James Healey, Lecturer.

Hon. John T. Graves, Orator.  
Boston Temple Male Quartette.

Single admission, 50 cents. Season  
ticket, only \$1. Reserved seat 10 cents  
per night extra, or 50 cents for the same  
seat throughout the course. To those  
who object to paying extra for a reserved  
seat we would say this is a superior  
course, and when the average cost per  
night for tickets including reserves is  
only 30 cents, it is heartless to complain,  
for you would have to pay two and three  
times as much for the same attractions  
at the average opera house. If you don't  
care for a reserved seat the average cost  
per night is only 20 cents. First enter-  
tainment next Tuesday evening. Nearly  
400 season tickets have already been  
sold to the representative people of the  
city. Reserved seat plat now open at  
Otto E. Curtis & Bros. Call early. 8-3t

School Report.

George O. Urban, teacher of the El-  
win school makes the following report  
for the month of October:

The following pupils have attended  
my school every day, during the past  
month: Ernest Burt, Arthur Kalp,  
Arthur Connard, Anna Banfield, Jessie  
Jones, Ethel Mercer, Grace Woods, Fay  
Davenport, Nona Burt, Nellie Connard,  
Josie King, Ada Woods, Beatrice Daven-  
port. The following have not missed a  
day since beginning of school: Anna  
Banfield, Ethel Mercer, Nona Burt,  
Nellie Connard, Josie King, Arthur  
Connard, Ernest Burt. Sickiness has  
caused a decrease in attendance during  
the past month.

To Make Chocolate Creams.

Break the white of an egg into a deep  
bowl. Stir in confectioners' sugar until  
a thick cream is formed. Then flavor  
to taste, mold into balls. Grate un-  
sweetened chocolate, place in a shallow  
dish over a kettle of boiling water until  
it is melted. Roll each ball in the  
chocolate and set on the ice until cold.  
It is impossible to give the exact  
quantity of sugar as eggs vary in size,  
but about one pound to an egg is the  
usual recipe.

PRESIDENT CLEVELAND'S suggestion

of arbitration of labor disputes gives  
general satisfaction. According to the  
White House chief he also appreciates  
the results of cooking with Dr. Price's  
Cream Baking Powder.

BEGINNING on Sunday night the pastor  
of the First M. E. church will resume  
his custom of giving a short prelude on  
current topics; their moral features of  
course being the point of discussion.  
To-morrow night the prelude will be,  
"Some Moral Reflections on the Recent  
Elections." Following this will be pre-  
ludes on the A. P. A. and the public  
school, the A. P. A. and the republic, di-  
vorce, marriage, and others.

# DUN'S TRADE REVIEW

Scarcely any Movement in the Speculative Markets.

## WHEAT ADVANCES AND CORN DECLINES

Cotton Reaches the Lowest Point Ever Touched, but Stocks are a Shade Stronger—A Further Gain in the Gold Reserve, Etc.

New York Nov. 10.—R. G. Dun & Co.'s weekly review of trade is as follows:

Business has been waiting the greater part of the week, and the elections are expected to give it a sharp stimulus. Whether men are right or wrong in expecting better things, the fact that they expect them does tend to make things better. Thus a larger volume of trade might be anticipated, although no present events can alter the size of the corn crop, nor make the demand for wheat or cotton closer to the supply. Whether the election returns affect the tariff, and if any industry is affected by it, favorably or unfavorably, the situation is exactly the same as it was before the people voted, at least for a time to come. But it is fair to infer that further modifications of the tariff are rendered less probable by the elections of Tuesday.

In the speculative markets there has been scarcely any movement and nothing favorable to holders. Wheat is 2 cents higher, out with receipts of only 3,845,462 bushels, against 4,609,477 the same week last year, there is little encouragement, because stocks in sight are far beyond all previous records. Atlantic exports have been only 552,317 bushels for the week, against 947,563 last year, and the price has advanced about one-half cent, but there is scarcely any confidence that present prices, low as they are, will be maintained. Corn has fallen about 2 cents, notwithstanding the fact that western receipts were only 1,017,695 bushels, against 2,494,647 last year, and Atlantic exports only 72,772 bushels, against 662,394 last year, for statistics have little effect when the supply is believed to be so far short.

Cotton has declined an eighth to 5 1/2 cents, which is again the lowest price ever recorded, and appears to mean a definite decrease in production hereafter, as in most of the southern states the prices now realized are not remunerative. For the present the stock here and abroad are large enough to kill any speculation.

Stocks were a shade stronger the day after the election, but the strength did not seem of an enduring kind. The average of railroad stocks at the close is barely \$1.32 truster stocks \$1.88 higher. The truth is that the disposition to realize on every small advance in prices is constantly encouraged by the unsatisfactory reports of earnings, which for the month of October were 2.8 per cent. smaller than last year, and 8.8 per cent. smaller than in October, 1892. The reports for the last week of the month were indeed a shade better, but there have since been more definite accounts of serious rate-cutting by the trunk line, which may mean a heavy loss before the season ends. The break in the coal stocks has not been repaired and it is believed that the coal-carrying roads will have to sacrifice a considerable part of their past profits.

The treasury reports a gain of about \$500,000 in its gold reserve for the week, but the customs and internal receipts are very low, and for the month of November thus far the expenditures have exceeded the receipts about 50 per cent. Foreign imports at New York for the two weeks have shown a gain of only 2.2 per cent, while in the exports of domestic products from New York there appears a loss of \$4,700,000 for the same weeks or 27 per cent.

The output of pig iron was larger by 7,711 tons November 1, than it was 154,866 tons weekly, than it was October 1, and larger than a year ago, but it is still about 13 per cent below the output last May, before the great depression began. It is noted that nearly all the furnaces in the region depending on Connellville coke and lake ore are now in operation with an output of 89,000 tons weekly out of a maximum in that region of 94,000 tons; but Bessemer iron is rather weaker at Pittsburgh, and prices for finished products of iron and steel have not improved.

Some of the wire rod mills have closed for lack of orders and a few of the large steel-manufacturing concerns have reduced hours of work. At the same time there is a decided improvement in the tone of the market and general confidence that the business will now improve.

The boot and shoe manufacturers have been doing relatively well as usual, though the season is about over and the orders running into the future are, as hitherto, almost exclusively for goods of the cheaper grades. The shipments from Boston, according to the Shoe and Leather Reporter were 71,000 cases for the week, against 56,000 for the same week last year. No change in prices has been noted, although manufacturers still complain that present prices of shoes and boots are not remunerative with current prices for leather.

In the textile industries there is rather more hesitation than appeared a week ago. Print cloths are lower, having declined to 2.65 cents, and some of the cotton mills have discontinued production because the demand is unsatisfactory, the shrinkage in the eastern and southern demand being generally attributed to the low prices of wheat and cotton and to the short crop of corn. Scarcely anything is doing in woolen goods for spring delivery, and the demand for fall and winter goods has nearly disappeared.

# ROSEBERRY'S SPEECH.

Significant Utterances at the Lord Mayor's Banquet.

## ENGLAND'S FRIENDSHIP FOR JAPAN.

Her Efforts to Promote Peace Between the Warring Powers—Alexander as a Conservator of the Peace of Europe—The Young Czar.

LONDON, Nov. 10.—The most notable feature of the lord mayor's banquet at the Guild hall last evening was the prime minister's speech on the political situation at home and abroad. The British government had given strong and tangible proof of its friendship for Japan by concluding the recent comprehensive treaty with her, Lord Roseberry said. It had also shown its benevolent neutrality in attempting to promote peace between the two warring powers. In this delicate and difficult business, the government had gone hand-in-hand with Russia and other interested powers. Although the sky was not clear, the government would let slip no opportunity to settle the war. Great Britain's relations to Russia were most cordial, the difficulty as to spheres in Asia having been terminated. If all the European countries concerned could only proceed cordially and without suspicion in Asiatic affairs, a great step would be taken to secure the peace of the world.

But recently the civilized world bewailed the assassination of the president of a country with which England ought to stand shoulder to shoulder in a generous commercial rivalry. Now she had to regret the death of a great emperor, the master of peace. The young head on which had fallen the terrible responsibility of the Russian crown might prove not unequal to the task.

After paying high compliments to the wisdom and moderation of Alexander III, Lord Roseberry spoke of his services in preserving the peace of Europe. Few persons realized, he said, the difficulty of keeping a good understanding among the nations. There was also danger in the mighty engine of the press, which often spoke under the influence of fierce competition and without weighing the effect of its announcements. He must ask the press to sift its news carefully before publishing it.

The foreign policy of England was strictly conservative and had nothing to do with party. The government wished things to remain as they were. It coveted nothing abroad. It was not worth England's while, with interests all over the world, to disturb the existing conditions.

## ANOTHER ISSUE OF BONDS

Determined Upon by the President and Secretary of the Treasury.

New York, Nov. 10.—It was stated on Wall street yesterday that there will be an issue of \$50,000,000 or \$100,000,000 5-per-cent. government bonds before congress again reassembles.

When the last issue of \$50,000,000 was made and the public declined to take the bonds, a syndicate of bankers, headed by John A. Stevens, president of the Union Trust Co., made the sale. A banker who was actively interested in that movement makes the following statement:

"There will be an issue of bonds shortly. The president and secretary of the treasury have determined that the gold reserve shall not be further impaired. They have been advised that an export movement of gold will begin in a few weeks, and they accordingly have determined to take prompt measures."

When asked whether a syndicate would be formed which would be guaranteed a commission to float the bonds, he replied: "I do not know. That lies in the discretion of the authorities in Washington. This much is certain, the 5-per-cent. bonds will be issued, probably upon the 3-per-cent. basis as before. They will be offered to the public; but the same gentlemen who made the last issue a success have assured the president that they will carry through the forthcoming issue."

The banker added that if \$50,000,000 bonds was insufficient, \$100,000,000 more would be issued.

## KIDNAPED HIS CHILD,

Having Been Awarded the Custody of It by the Divorce Court.

KANSAS CITY, Nov. 10.—Jasper Jamison, a business man from Topeka, came here with Detective A. F. Jacobs and kidnapped his 3-year-old daughter Pearl. Jamison was recently granted a divorce by the Topeka courts from his wife, who is a private detective in this city, and goes by the name of Elizabeth Valdevora. Jamison was awarded the custody of his daughter, who was in the hands of her mother. Jacobs enticed from her home the mother of the child while the father went in and kidnapped his daughter and boarded a train for Topeka. The mother went to Topeka by the next train to try to regain her child.

## On a Murders Mission.

DURANGO, Col., Nov. 10.—Jesse Haller, who killed Frank Carpenter near Cortez last spring, started out Thursday morning to kill the entire Carpenter family. He met a brother of Carpenter and his name was Dale, witnesses of the former shooting, and opened fire, killing Carpenter and dangerously wounding Dale. A posse is in pursuit of Haller.

## A Bold Robbery—One of the Boldest Shot.

LANDEER, Wyo., Nov. 10.—Three masked men entered E. C. Enderly's store at Thermopolis, covered the proprietor with guns and compelled him to give them \$1,300. Enderly and others pursued the robbers and shot one, who was recognized as Jack Snyder. He will die. The others escaped with most of the plunder.

# TELEGRAPHIC NOTES.

—The Argentine republic has refused the offer of China to purchase war ships.

—The Chinese soldiers are deserting from New Chang, fearing an attack by the Japanese.

—Gillaume Louis Fignir, the French chemist and scientist, died in Paris yesterday, aged 75 years.

—It is reported that Port Arthur is still invested by the Japanese, and that two of the forts there have been captured by them.

—Attorney-General Olney talks of resigning his public trust to return to private life and a business worth \$50,000 to \$40,000 a year.

—The Schulenburg-Hoeckeler Lumber Co. of St. Louis, has assigned to E. C. Tittman, attorney for the creditors. The assets are placed at \$600,000.

—The Roman Catholics and the Lutherans are the only recipients of money from the national government for sectarian education among the Indians.

—The first meeting of the American Academy of Railway Surgeons was held in Chicago yesterday. The association is composed of dissatisfied members of the national association.

—The Pull Mall Gazette prints a dispatch yesterday saying the Japanese forces had captured Italian-Wan. The Chinese fleet was at Wei-Hai-Wei and the Russian fleet at Che-Foo.

—A cloud-burst near Valencia, Venezuela, killed 150 persons and damaged the coffee and other crops to the extent of \$500,000. Houses were leveled, bridges washed away and traffic generally suspended.

—The bank at Oberlin, O., was robbed Thursday night. The front door was forced and the safe blown open with dynamite. The robbers secured \$300 in silver and a quantity of valuable papers.

—Emperor William has offered Herr von Hammerstein, director of the province of Hanover, the new portfolio of husbandry, which the latter has accepted. This appointment is regarded as a great concession to the agrarians.

—The annual meeting of the members of the National League for the Protection of American Institutions was held Thursday at their headquarters in New York. Dr. James M. King, the general secretary, made a gratifying report of the year's work.

—The house special committee, Representatives Bailey, of Texas; Lane, of Illinois; and Broderick, of Kansas, appointed to investigate the charge of malfeasance in office against Judge Ricks, of Cleveland, O., will meet in that city next Thursday to begin their work.

—"Kid" Thompson and "Col." Hopper, two of the Roscoe train robbers, have been captured at the foot of the Reno mountains and taken to Phoenix, Ariz. The robbers fought desperately, only surrendering on condition of good treatment after over fifty shots had been fired.

A private dispatch received at the New York cotton exchange announces the failure of Busch & Co., of Havana. The announcement caused a drop of four points in cotton. Later it was said that the firm had very little interest in cotton, being involved principally in coffee.

Hundreds of Chinese are arriving at Che-Foo from Manchuria, whence they are fleeing, frightened at the approach of the Japanese. The Chinese troops and such vessels of the Chinese fleet as are not cooped up at Port Arthur, have been ordered to attack the Japanese wherever they meet them.

—That H. Clay Evans, the republican nominee, has been elected governor of Tennessee is made more apparent as fuller returns are received. A careful estimate of eighty-one counties gives him a majority of 3,100. These figures, it is thought, will be further increased to 9,000 when the full returns are in.

—It has been suggested, and may be carried out, that as a testimonial to Rev. Dr. Parkhurst for the work performed by him in bringing about the purification of politics in New York a chair be endowed in Columbia college in his honor. It is proposed to call it "the Parkhurst chair of municipal reform," and to install Dr. Parkhurst as its first professor.

—Four hundred men employed at the Canton copper works in Baltimore, Md., have been formally notified that on next pay day their wages will be increased 10 per cent. The proprietors say the new schedule has been struck owing to the prospective increase in the profits of the concern. A reduction was made in the wages of the employees in November, 1892, immediately after the general election.

## STARVING ON THE MOUNTAINS.

Chinese Soldiers Suffering from Cold and Exposure—The Last Stand.

SHANGHAI, Nov. 10.—The Chinese army of the north has retreated to the mountains where the soldiers are reported to be starving and suffering severely from cold and exposure. The Japanese army is reported to be encamped at Feng Whang Cheng. Japanese are pursuing about 15,000 Chinese, mostly raw recruits.

Port Arthur is expected to make a determined stand against the Japanese. Admiral Sir Fremantle, who is in command of the British fleet, considers that Port Arthur will probably be the scene of the last engagement of any importance between the Chinese and Japanese.

Declared a Free Port.—This city was, yesterday morning, declared a free port. The formal royal ceremonies accompanying the declaration were omitted in consequence of the death of the czar.

Two Were Drowned.—The Spanish flag-ship Fernando, founded Thursday morning twenty miles north of Bahia Honda. Ten of her passengers and crew were drowned.
